Design Collection PREMIUM

Award-winning design that helps your building stand out.

The new KONE Design Collection is a versatile set of 52 inspiring elevator car interiors created by KONE's award-winning design team.

Drawing on continuous studies of the latest trends in architecture, design, and material technology, our team of design professionals has created a diverse set of themes that appeal to a wide variety of tastes and are flexible for use in a range of different environments. From casual, simple designs to striking, bold interiors, there is a KONE Design Collection car that will help your building stand out.

The unique patterns and material finishes we offer have been created especially for KONE. The combination of textured, patterned, and 3D-effect wall materials with novel lighting solutions creates a stunning visual effect.

Choose a complete elevator interior from one of our six design themes, or create your own unique design by mixing and matching our wide range of materials, colors, finishes, and patterns with your choice of accessories and lighting solutions.

KONE's elevator and signalization design concepts have received both red dot and Good Design awards.
